

DYNAMIS – concluding remarks – Towards Hypogen

Nils A. Røkke
Co-ordinator DYNAMIS

EU - DYNAMIS/HYPOGEN overall timeline & budget

- Phase 0 Feasibility Study by JRC (2004)
- Phase 1 Measures within FP6, DYNAMIS (2006-2008) 7.5 M€
- Phase 2 Pilot Scale Demonstrations (2008-2010) 290 M€
- Phase 3 Demonstration Plant Construction (2008 – 2012) 800 M€
- Phase 4 Operation and validation (2012-2015) 200 M€

SUM

~1300 M€

Pic. Siemens

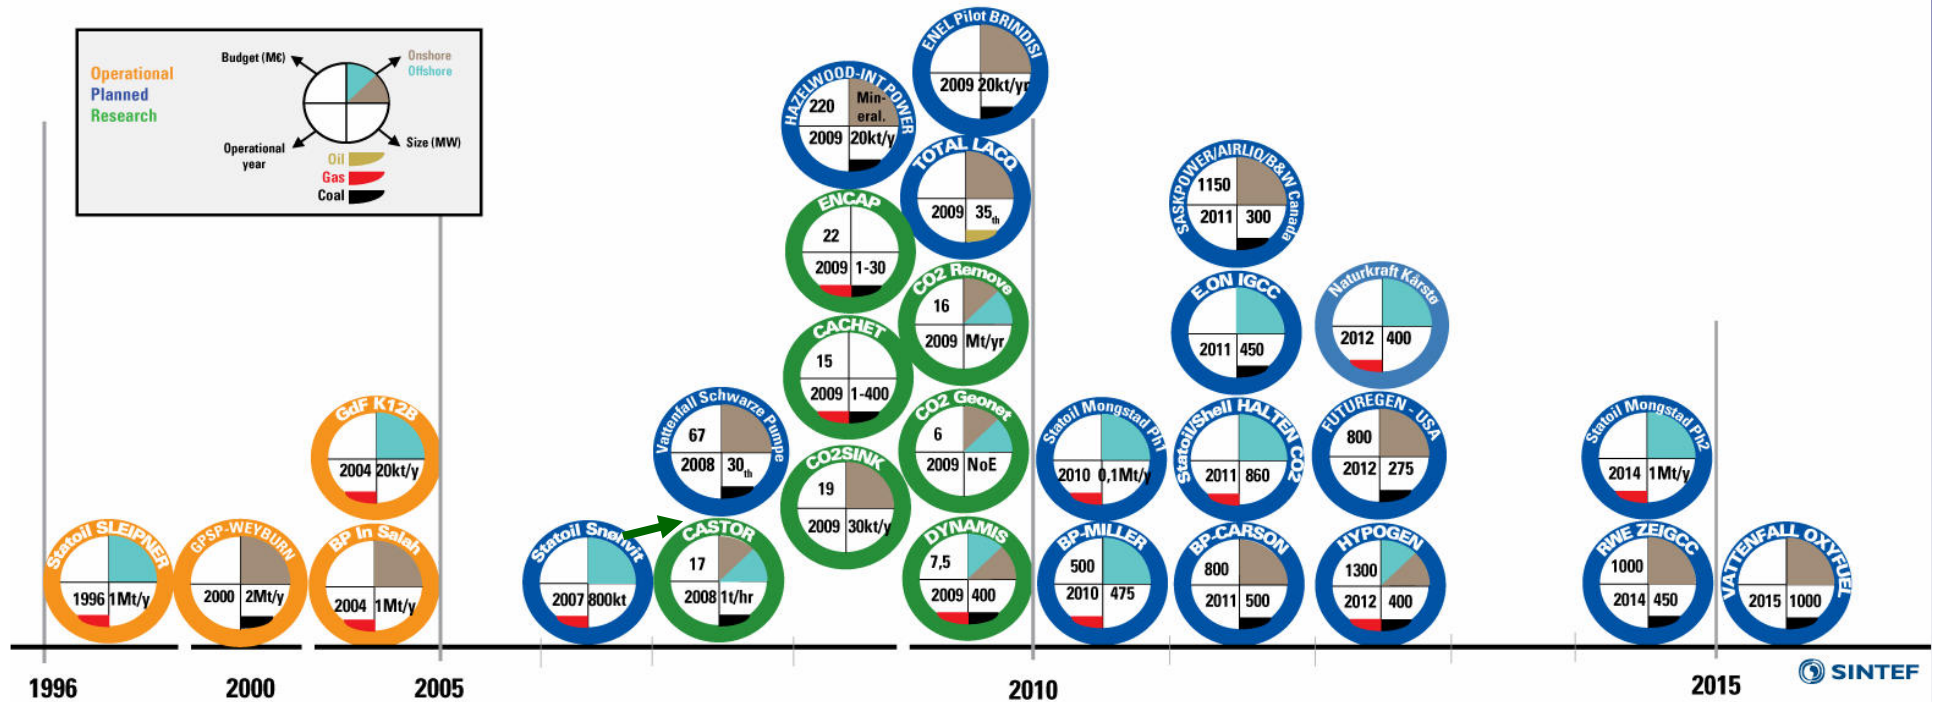

Pic. Vattenfall

Ill. Statoil

When do the project emerge?

Conclusions

- DYNAMIS is the vehicle for HYPOGEN
- It should be used actively to promote and accelerate the HYPOGEN initiative under ZEP
- The present phase will bring forward cases that can be brought to pilot/demo/full scale in 2012-2014
