

Design and get involved in the next H2020 bioenergy proposals

The Research Council
of Norway

Brussels 13 September 2017

START building your consortium with excellent partners
in the field of bioenergy NOW.

A dedicated **workshop/brokerage event on project generation in the field of bioenergy** is organised by SINTEF and the Research Council of Norway, in cooperation with a **cross-fertilized team** represented by multispectral **Norwegian and European actors**.

WHY

The **aim** of this event is to generate and develop projects responding to the bioenergy challenges addressed by the **Horizon 2020 framework programme for the time frame 2018-2019**, by **connecting industry, the scientific community, and the public sector**. It will provide a unique opportunity to make new contacts, establish new partnerships and develop projects in a multisector approach.

WHO

This event targets a wide spectrum of participants with complementary skills, both in terms of expertise as well as project roles (from project participants to project coordinators, via project idea owners). It targets the following groups:

- Norwegian bioenergy community
- European Energy Research Alliance (EERA) JP Bioenergy
- European Technology and Innovation Platform (ETIP) Bioenergy
- European Regions Research and Innovation Network (ERRIN)

WHAT & HOW

The workshop/brokerage event is planned as a full-day event, focusing on relevant bioenergy topics addressing stationary bioenergy (heating, power, and cooling), bioenergy carriers and biofuels. Detailed information of the topics is available [here](#).

After an initial presentation of the relevant topics, there will be parallel working group sessions focusing on distinct topics, with the participation of National Contact Points for H2020 Energy to support and advice during the discussions. In order to make the workshop efficient, structured and successful, the participants will be invited to provide an outline of their project ideas/expertise and/or challenges prior to the event.

WHERE & WHEN

The event will be held in Brussels on 13 September (Venue tbd). The deadline for registration is 21 August and deadline for submission of project ideas/expertise is 30 August.

REGISTRATION

The event is free of charge, registration mandatory!
[Online registration on this page.](#)

Please note that due to the size of the meeting room, registrations will be accepted on a «first come-first served» basis (~40).

For further information, please contact: Berta Matas Guell, berta.guell@sintef.no

PRELIMINARY PROGRAMME

- 08:30 Registration and welcome coffee/tea*
- 09:00 Introduction: setting the scene
- 09:30 Presentation of relevant H2020 bioenergy topics
- 10:15 Coffee/Tea*
- 10:45 Pitching of project ideas
- 11:30 Working group session 1
- 12:45 Lunch*
- 13:45 Working group session 2
- 15:00 Working group session 3
- 16:15 Summary and next steps
- 16:30 Closing
